

# Seawanhaka-Corinthian Club Arranging Elimination Yacht Trials for August

## Seek Boats of Six-Meter Type for Sound Race

Selections for British-American Cup Event To Be Made From Participants

By Jack Lawrence

The committee of the Seawanhaka Corinthian Yacht Club in charge of the arrangements for the international race to be held here in September for the new British-American Cup. Yesterday sent letters to various organizations inviting their members to build boats of the six-meter class to take part in the elimination trials which are to be held on Long Island Sound in August.

From 100 American boats participating in the trials will be selected a fleet of four yachts which will make up the British team in the contests for the trophy. Although the Seawanhaka Corinthian committee has only begun its work and the British-American test has received comparatively little publicity, there has been an extraordinary amount of interest manifested in the event by yachtsmen all along the Atlantic seaboard. The race will be the only international sailing event of the year.

Already designers are busily engaged in preparing plans for new boats, and in some cases these plans have progressed so far that models showing the hulls have been made. There is every indication now that there will be upward of twelve boats competing in the American elimination trials, which are to be held on under the auspices of the Seawanhaka Corinthian Yacht Club at Oyster Bay.

### Certain Candidates

Final arrangements were completed yesterday for the entry of at least two dozen American six-meter boats to go to England last summer to compete against the British in the Solent. The two that are certain to be candidates for the American team next summer are the Grebe, designed by William Gardner for John L. Safford, and the Albatross, designed by L. J. T. Jeffries, and the Montauk built by W. A. M. Stebbins and Winthrop Marchant.

Both of these yachts, particularly the Grebe, made a record showing against the British, although they went down a goal in the final point score with two Communards. The Grebe and Albatross are still on the other side, but engagements have already been made with them back home, and will arrive in time to be put into additional competition for the elimination trial. The rest of the American candidates will represent the work of the best amateur and professional designers in this country.

Incentives to participate in the elimination trials we're seen yesterday with all the clubs holding meetings with the Yacht Racing Association of America, the Baltimore Yacht Club, the Philadelphia Corinthian Yacht Club, the Yacht Racing Union of Massachusetts, the New York Yacht Club, the Eastern Yacht Club, the Corinthian Yacht Club of Marshfield, the Atlanta Yacht Club and the Miami Yacht Club.

The invitation read in part as follows:

"Last year a team of sixteen yachts, both English and American, took part in the international series of trials now in force in Europe, was sent to England under the auspices of the Seawanhaka Corinthian Yacht Club and sailed a series of races in boxes for the British-American Cup."

### Match in Home Waters

The excellent feeling between the yachtsmen in the two countries resulting from this match might be held as a return match might be held soon after the trials. The Seawanhaka Corinthian Yacht Club during September 10. It is at present believed that there shall be a series of six races between the two teams of three or four boats on a schedule to be on the point system, now in general use on Long Island Sound.

The Seawanhaka-Corinthian Yacht Club takes pleasure in extending an invitation to the members of your club to attend the trials. Your delegation trials, which are to be held under its auspices during August, 1922, at Oyster Bay. The club further urges that you will bring this notice to the attention of your club officers and members as early as possible, in order that those who wish to do so will have an opportunity to compete in these trials.

Our club has made every endeavor to persuade the English representatives to hold the return match under the American rules—measurements, etc., owing to the present circumstances in England was unable to do so this year, and therefore decided that it would be better to hold a return match under English measurements rather than to have the whole match delayed.

Clinton H. Crane, a member of one of the cleverest amateur skippers in this nation and also a well known designer, has been added to the Seawanhaka Corinthian committee that will handle all matters pertaining to the international race.

### Boxers Selected for Tourney

Old Terms, heavyweight; William Stevens, middleweight, and Willie Morris, featherweight, amateur standards, have been selected to represent the New York City boxing tournament to be held in Madison Square Garden January 18 and 19. Philadelphia, Boston and Pittsburgh have entered their best boxers.

Morris and Schneider Win

Herbert Morris and Carl Schneider won their bout last night in the Manhattan pocket billiards championship at the Morningside Academy and will meet tonight for the title. Morris defeated E. Burd, 100 to 92 in seven innings. He had runs of 11, 2, and 2. Schneider trounced R. Leon, 100 to 96. His high run was 25.

Apprentice allowances claimed.

### Johnny Wilson Barred From New York Rings

THE New York State Athletic Commission yesterday barred Johnny Wilson, middleweight champion, from again appearing in any ring in this state. New York is the third state to take this action against Wilson, which also applies to his manager, Martin Killilea.

The action of the local body resulted from Wilson's repudiation of his agreement to meet Harry Greb, of Pittsburgh, in a match for the middleweight title in Madison Square Garden. One of the commission's duties is to see that all contracts between boxers and clubs are adhered to.

### Coach Neale Lands Team for Showing In Game on Coast

PASADENA, Calif., Jan. 1.—Both still undecided, the football teams of Washington and Jefferson College and the University of California, which battled here yesterday to a scoreless tie, to-day were re-entering from the annual East versus West clash.

Coach Earl Neale of the Presidents and Coach Andy Smith of the Bears made brief comments on the result of the game.

"I am entirely satisfied with the showing my men made," said Neale. "If the weather had been a little better, I think we could have won."

"I am entirely satisfied with the showing my men made," said Neale. "If the weather had been a little better, I think we could have won."

"I am entirely satisfied with the showing my men made," said Neale. "If the weather had been a little better, I think we could have won."

"I am entirely satisfied with the showing my men made," said Neale. "If the weather had been a little better, I think we could have won."
